

## ***INSURANCE COVERAGE***

**We are an out-of-network provider. This means that for those with out-of-network insurance coverage, you may be eligible for reimbursement from your insurance company.**

**We bill your insurance company directly for you. We will check your insurance benefits and will submit claims directly to your insurance carrier on your behalf.**

**Insurance reimbursement varies depending on your plan. For example, your out-of-network coverage may be 80/20 after meeting a deductible. This means that if you have a \$500 deductible, after you pay the \$500, your insurance will cover 80% of the reasonable and customary rate, and you will be responsible to pay the other 20% plus any remaining balance.**

**Depending on your benefits, this can be advantageous to you because you may actually **pay less** for services than if you were going to an in-network provider. The 20% that you would be responsible for may be less than your in-network co-payment.**
